A Grand Picnic
Final arrangements have been made by the Loyal Order of Moose to hold a grand picnic at Lawrence Villa Park on Sunday, August 6.
Moose from all parts of the country will be present and many entertaining features have been arranged, among which will be a tug of war between four different lodges for Sonoma's mascot donkey.

A rabbit hunt will also be a special feature and furnish much amusement for all. Games and races will be in vogue, and suitable prizes will be given.
The ball room will be open all afternoon and suitable music will be in constant attendance.

The Sonoma Valley Band will meet special trains and after a parade will give an open air concert during the afternoon.
Gere & Bouchin, proprietors of Lawrence Villa Park, assure all that the dining room tables will groin with the weight of delicious delicacies.
Those desiring to enter in the foot races had better get into training as some sprinters of note will be present.

To Build Large Bridge
Work on one of the largest single span uplift bridges ever to be constructed has been started by the Southern Pacific Company in San Pedro harbor, California. The length of the bridge is 187 and one-half feet. The bridge will carry a double track and will be operated by electric power, capable of lifting the ponderous mass of steel in fifty seconds, affording a clear channel of 185 feet for the passage of boat traffic.

The new bridge is what is known as the Strauss trunnion type, differing from the Bascule bridge of the Salt Lake Railroad, also at San Pedro, in that the latter is lifted on a rocker, while the Southern Pacific bridge will be lifted on a tail pin or hinge. It is also to be double tracked. A latch operated by a motor will hold the bridge in place when it is down. This new bridge will replace the present Southern Pacific and Pacific Electric trestle bridges.

One Glass of Beer,
32 Months of Folsom

Thirst demanded a usurious price of John Anderson, who, because he took one glass of beer while on probation from Folsom prison, will have to serve 32 months longer, while a wife and child are left without a provider.
Anderson, who is an electrician by trade, was sent to Folsom eight years ago for complicity in a teleny at Santa Rosa. His excellent conduct during his imprisonment, won for him a parole 14 months ago, since which time he has been working in a tannery supporting his wife and child. He chanced to pass a saloon at Third and Mission street, San Francisco, recently and entered to refresh himself with a glass of beer. Some one recognized him and apprised Patrol Officer R. J. Frank, with the result that he is now in the city prison en route to Folsom, where he will again don his prison garb and serve out the full measure of his punishment.

Install Block System
The block system of the Northwestern Pacific Railway will soon be in operation as far north as Ignacio and the poles are already in position while all the material is on the ground. Many of the tower houses have already been completed and after the system is completed to Ignacio it will be extended Northward.

Under this system, accidents are an impossibility as unless the tower man blunders, only one train is allowed on the block at one time. The switches are handled by means of electric contrivances and the trains are controlled by semaphore signals. It is the system in use in the big roads and the only perfect system now in use.

New Law Elocks Tax
Dodgers

State Controller A. B. Nye has issued a statement concerning the corporation tax, from which the state now secures its revenue, showing that under the new law corporations are obliged to pay these taxes even though they have gone out of business or disposed of their property since the assessments were made by the State Board of Equalization. The state has a lien upon the property of every corporation operating in California for the 1911 taxes and is authorized under the law to hold the property responsible for the tax. The lien is not removed until the taxes are satisfied, either by payment or sale of the property of the corporation.

A section of the law provides for the seizure and sale of personal property, where the taxes are not secured by real estate. This is of particular interest to companies which owned property on the 6th of March but have since dissolved or which intend to disincorporate.

One of the consequences of failure on the part of a domestic corporation to pay is forfeiture of character and forfeiture of the right to do business within the state if foreign corporations refuse to pay the state tax. The State controller has the right to bring suit for the collection of taxes within sixty days after the first Monday in March. This is in case of delinquencies.

A number of corporations have reported that they desire to forfeit their charters, and for that reason they will not pay the franchise tax. They will be unable to escape the tax because the 1911 law makes it the duty of the State Controller to enforce the collection of taxes by one of the several methods provided for.

Fall of the Bastille

The 122 anniversary of the Fall of the Bastille was celebrated at El Verano Villa by one of the greatest and most enjoyable days of the season. Valley residents have ever had the pleasure of participating in.

Mr. and Mrs. Lamotte kept "open house" for their friends and patrons, and were certainly the La Host and La Hostess.

Mr. Louis Lamotte opened the proceedings with a few well chosen remarks and then the fun commenced.

The Pavilion music was furnished by Fitzgerald and Peeples augmented orchestra, while the popular Sonoma Band directed by Clud Johnson, rendered popular airs in the gardens.

La petite Ruth, one of the villa guests, and one of San Francisco's favorites, made a big hit with her rendition of the Marseillaise. For an encore she sang Life is a Honey-moon, accompanied at the piano by Mr. Jos. Fitzgerald, the author of this and other popular songs. The Star Spangled Banner was then sung by everyone present.

A novel feature of the evening was introduced by Mme. Marie Lamotte. The little hostess had three volunteers on the roof of the pavilion; one at each of the three ventilators, which are about three feet apart, one with red content, one with white and the other with blue, and they certainly kept busy. She called it a France-American snow storm, and it was some class.

The dance hall was filled to capacity and everyone had a good time.

Respectfully submitted,
Pop Rice, Master of Ceremonies.

Buys Redwood Finishings

Says the Eureka Herald:
Jack London, author and sportsman, who has been a visitor in Eureka for some time, (showed his appreciation of the beauty of redwood burhl when he purchased burhl finishings for his Glen Ellen home in Sonoma county to the value of between \$300 and \$400.

London is now building at Glen Ellen a mansion that will cost between \$50,000 and \$60,000. This palatial residence will be fitted up in magnificent style, and the redwood burhl from Humboldt will occupy a prominent place among the finishings.

Horse is Electrocuted

There was an alarming accident near Glen Ellen Saturday morning last. Mrs. Henry Chauvet, wife of the well known Glen Ellen wine maker, started to drive to Petaluma in a two horse surrey, accompanied by her two sons. During the night a large branch had fallen from a tree alongside the road, near the old Chauvet winery, and in falling had brought down a live wire. Mrs. Chauvet did not notice the wire, but started to drive around the obstruction. The horse nearest to the bough stepped on the wire and instantly fell, and did not rise again. The animal lay across the wire and was slowly roasted.

J. Welz, the laundryman at the Sonoma State Home, who was being given a ride in the surrey as far as the Home, jumped out and cut the other horse loose so that it would not share the fate of its companion.

Mr. Chauvet was sent for, and when he arrived he took hold of the fallen horse's hoot in an effort to pull it off the wire. He received a shock of electricity that almost killed him. Willing hands pulled him away and saved his life.

The horse stepping on the live wire probably saved the lives of the occupants of the surrey, as the chances are that if the wheels had run into the wire all would have been killed. Mr. Chauvet had poor luck with his horse. About two months ago another valuable animal that he owned got tangled up with a hay cutter, and was badly injured that it had to be shot.

Expect Record Prices For Fruit

The best week that the fruit industry of California has experienced so far as fruit prices are concerned is expected for the next seven days. None of the markets have more than half the fruit that they desire and prices will be strong all along the line.

This week the shipment of peaches will be heavier, but the supply in the east will not be great, the number of cars in transit being comparatively small.

Peaches, commencing Tuesday, will arrive in Sacramento in large quantities from the islands and the shipments during the week will be heavy.

Fruit shipped from the state Saturday amounted to 53 cars against 164 cars for the same date last year. The assortment Saturday was as follows: Cherries, one-half car; apricots, one quarter car; peaches, six and a half cars; plums, twenty one and a half cars; pears, twenty and a half cars; grapes, four cars. A year ago Saturday three and a half cars of apples were shipped.

Total shipments from the state to date have amounted to 1251 3/4 cars against 2624 for the same time last season.

Sonoma County's Apportionment

The second semi-annual apportionment of State school funds amounting to \$1,694,896.09 was made by State Superintendent Hyatt. Of this amount \$1,566,913.41 will be reapportioned by the fifty-eight county superintendents of the state to the elementary schools and \$128,882.68 will be reapportioned to the high schools of the state.

Sonoma county receives \$37,135.80 for elementary schools and \$2,156.56 for high schools.

Were Awarded Prizes

The first prize in the Educational School Contest has been awarded by the judges to Mary Guesler, of Graton, while the second prizes have been awarded to Miss Ouida Clements, of El Verano, Miss Beth S. Lancaster, of Santa Rosa, Miss Ruth Churchman, of Sebastopol and Mr. Russel Prestwood, of Sonoma. The names of those entitled to receive a third prize will be announced later.

The special Teacher's prize, consisting of a complete set of Encyclopedia, forty volumes, has been awarded to Miss Jennie Purvine, of the Lytton School.

Visits Glen Ellen Grange

There was a largely attended and important meeting of the Glen Ellen Grange Saturday. A special feature of the occasion was the official visit of State Master E. T. Pettit of San Jose. His address was heard with much interest. It depicted the value of the Grange to the community and he was heartily applauded.

The lecturer of the Grange, Mrs. Robert Potter Hill, read a very interesting paper on the subject, "Conversation of the Individual." She was cordially thanked for her effort.

After the formal program refreshments were served and State Master Pettit expressed himself as being well pleased with the visit and the reception accorded him.

Robert P. Hill was authorized by the Grange to represent it at any good roads' meeting that he may attend. It is the sentiment of the Grange that the proposed road from Santa Rosa to Napa and up the Sacramento Valley will be a beneficial road for the farmer.—Press Democrat.

Chisholm Confesses

In Judge Seawell's court on Tuesday last Dr. L. C. Chisholm admitted that he killed Powell.

The court room was crowded with spectators and witnesses and Chisholm was not interrupted in his confession, which is briefly told as follows:

I shot Wilson (the prisoner claims that his victim's name was Wilson and not Powell) as he came right towards me with a revolver pointed at me. I shot him and he fell. I fired twice. At the time I shot I realized that I could not get away. When I came back to the tent I asked Wilson if he was not going to get supper as I was very hungry. He told me to go to — and get the supper myself. I saw that he had been drinking a lot of whisky, having opened the second bottle while I was out of the tent, and I said: "I will put an end to this." Taking the bottle I went outside and emptied the remainder of the contents into the sand. When I told what I had done he grasped his revolver and said: "Well, we'll put an end to this right now." I grabbed the revolver and ran out of the tent. I had forgotten that I left my revolver in the tent, and heard him make some moves. Just as I turned he came out of the tent and walked toward me, and I fired. After he had fallen I ran to his side, and cried: "Jack, for God's sake, did I hit you," but he made no reply. Then I did not know what to do.

He looked so natural I picked him up and carried him inside and covered him up. They say they found the pistol lying on his arm. I have put it there, I don't know. A short time afterwards he died away, and then I remembered that I had not tied the opening of the tent. I returned and tied it. Then I walked on towards Markins and took the noon train for San Francisco. On the platform of the depot at Santa Rosa I remember having seen the woman who testified, Mrs. Collins, I believe.

"Yes, I was married before in the east, in 1880. At that time I married Blanche McGready it was under the name of Powell as I did not know whether I had been divorced or not."

"I wrote the postals introduced in evidence, all of them. I also wrote the note found in the tent: 'Dear Blanche, what's the use—' but this note had nothing to do with the killing. I also signed the marriage license register and insurance policy affidavit, in fact all of these exemplars introduced—I wrote."

"I went to Stockton and was examined for insurance by Dr. Clark. I did so at the request of Lucy Putman, or as I knew her at the time, Mrs. R. D. Mahoney. She was put out because her husband would not take a policy, and then asked me if I could not take out one under the name of Powell, which she said was her brother's name. I said it could be done, and whatever I did in this connection was to help her out, and at her request. I said during the medical examination that my father was dead, having been killed in a runaway accident. That was not true, as my father is still alive."

"I did not tell Venice Dean anything about insurance and I did not suggest to her that she pose as a widow and collect an insurance policy on a corpse I would furnish."

"I did not tell the witness McLellan that I had equipped another man named Harwood, who was to go in to the hills on a prospecting tour with a companion, or that I loaned the man Harwood my coat and vest. I did not tell him after the newspapers had said it was probably a case of murder at Fort Ross that suspicions would probably be directed at Harwood and myself, and that we would be suspected of having murdered Powell."

"I did not tell the witness, Cameron, that I had been living with the Putman woman."

"I was once convicted of felony. I was charged of being connected with another man who made counterfeit money."

"I wrote that letter introduced, purporting to come from San Francisco, and directed to John Powell at Fort Ross. I did so to shield me from suspicion."

Dr. Chisholm Found Guilty

Dr. L. C. Chisholm was adjudged guilty of murder in the first degree by a jury of his peers in Judge Seawell's department of the Superior Court at 8:25 Wednesday night, on about thirty minutes after the case had been submitted to them.

In their verdict the jurors fixed the punishment of the perpetrator of undoubtedly the most cold blooded murders in the history of the county at life imprisonment, and in accordance with their finding Judge Seawell will at ten o'clock next Saturday morning formally pass sentence.

The jurors' verdict read as follows: "In the Superior Court of the State of California, in and for the County of Sonoma. People of the State of California, plaintiff, vs. L. C. Chisholm, defendant.

"We the jury, find the defendant, L. C. Chisholm, guilty of murder in the first degree, and we hereby fix his punishment at life imprisonment. J. W. McNally, Foreman."

When Clerk John Burroughs read off the verdict finding the accused guilty the prisoner dashed his handkerchief to his eyes and buried his face for a few moments. Every eye in the crowded court room rested upon him. Then he removed his handkerchief, wiped his eyes and sat motionless. At his back stood Deputy Sheriff Donald McIntosh and Charles Meyer. After the court had dismissed the jury, Deputy Meyers tapped Chisholm on the shoulder, and he rose briskly, snatched his hat from the rack and followed Sheriff Smith and the deputy through the crowd in the corridor and passed out of the court house to his cell in the county jail. He did not want to be interviewed. He left the court house with the words of many bystanders ringing in his ears: "You got off lucky."

Grand Entertainment

As stated in last week's issue an entertainment will be given in Union Hall, Sonoma, on Saturday evening, July 26, in aid of St. Francis' church.

Some excellent and novel features have been arranged for. Among them are Miss Frances Dougherty's Irish, Dutch and Spanish specialties; Montague Barton's beautiful dancing and Dan Casey, the San Francisco comedian.

The famous hospitality of our Sonoma ladies promise us refreshment material as well as mental. Such an irresistible combination of attractions cannot fail to draw all of our townspeople, whom we confidently expect, as well as many visitors whom we should be delighted to entertain.

A Successful Demonstration

Monday evening a large number of our citizens assembled in the plaza to witness the demonstration made by Mr. S. W. Still of a fire extinguisher that he is introducing throughout this section. He arranged two dry goods cases one above the other, and then placed excelsior and lathes saturated with coal oil. To this he set fire and after waiting for the fire to get a good start, quickly extinguished the blaze with his apparatus, which contained only a gallon and one-half of solution. The apparatus has the advantage over the old fire extinguisher by being light and easily handled.

Stole Barge of Lumber

"By far the gravest and most far reaching scandal which has ever disturbed Mare Island has been uncovered by the discovery that an entire barge of lumber has mysteriously disappeared as the culmination of a series of robberies covering a period of several months.

The lumber is valued at from \$7,000 to \$8,000. An investigation was proving hopeless until a Napa machinist was cornered in conflicting stories, and finally involved Richard Ward, foreman of the lumber yard.

It is declared Ward has signed a confession implicating a number of prominent business and social people of Vallejo as well as employees of the Navy Yard.

Announcement

Western State Hosp. Assn. wishes to announce to their members in Sonoma that on Tuesday's and Friday's of each week Dr. Rohl or Dr. Hamlin will hold office hours at the Swiss American Hotel, B rms 2 & 4. In the mean time call main office at Santa Rosa. 27 2b.

After Evidence of Burke Trial

The efforts to secure a new trial of the notorious Dr. Burke case, in which Dr. Burke was convicted at Santa Rosa of an attempt to blow up Lu Etta Smith by means of dynamite, had a sensational ending in Lakeport Saturday morning. The episode was a vigorous and heated public denunciation of Detective Hurst and R. F. Grigsby, superintendent of Dr. Burke's Oroville mine, by Dr. W. Dillard for their accusations against Earl Edmunds. Hurst and Grigsby went to Santa Rosa recently on a quest, as they state, for new evidence. They state that they are retained by several wealthy friends of Dr. Burke who have a doubt of the justice of his conviction and are desirous of making an impartial search for any possible new testimony on the crime, "whether it favors Dr. Burke or not."

The pair induced Earl Edmunds, who came up last Friday evening from Adams Springs with a patient, to enter their patient in a local hotel, and there practically attempted to impute the dynamiting outrage to him. Edmunds' surprise and indignation apparently convinced them that they could accomplish nothing by these tactics, and they quickly withdrew the accusation and sought to smooth the affair over. The move was apparently the old detective game of bluff, by which the pair thought they could surprise Edmunds into telling more about the crime. Dillard and Edmunds were both important witnesses for the prosecution in the Burke trial and told everything they knew.

Dillard, because of this badgering of young Edmunds, and for imputations made by Hurst against him, was highly indignant, and voiced his sentiment against Hurst and Grigsby to their faces on Main street one day this week. The pair sought to quiet him, but Dillard said he had nothing to conceal and gave his opinion of them in the presence of a number of witnesses.—Lakeport Press.

Caliente Wins Again

The Caliente Mineral Water, bottled at 11 came out victorious. They played the S. J. F. team, of Fruitvale on the Petaluma diamond Sunday afternoon, and won by a score of 12 to 3. Several brilliant plays were said to have been made by the Caliente boys. They have issued a challenge to the Petaluma and Santa Rosa teams.

Held a Reception

In Masonic Hall last evening was held a special session of the Eastern Star for the reception of the Worthy Grand Matron, Mrs. Ada M. Dutton, and Grand Secretary, Mrs. Kate Willets. There were present also a number of visiting members from Silver Spray Chapter, of Napa, and other chapters were represented.

Two new candidates were initiated into the order, Mrs. Ben Bordson and Mrs. William Clements.

After the meeting closed a delicious banquet was served in the banquet rooms, after which all enjoyed speeches by our Grand Matron and other members.

Lane Proposes Ticket

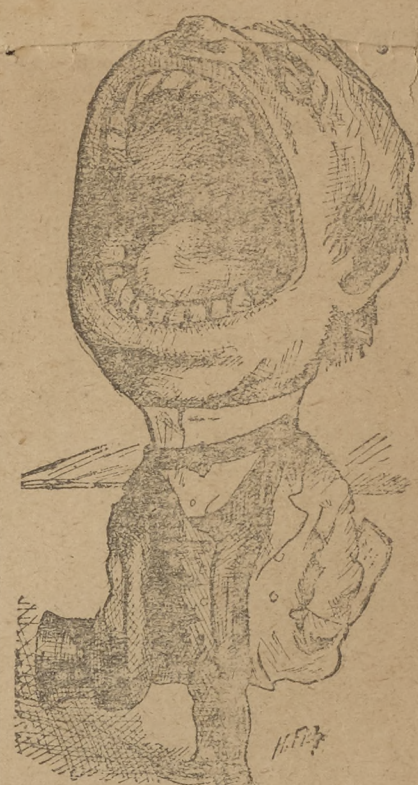

Railroad tickets good for unlimited transportation for a certain number of days within the boundaries of California, similar to the tickets sold in Switzerland, would do more to show tourists the glories of this state than any form of advertising, is the opinion of Interstate Commerce Commissioner Frank K. Lane.

Commissioner Lane made the suggestion in the presence of Edward T. Jeffrey, president of the Western Pacific, and a number of railroad officials and railroad financiers at the St. Francis, in San Francisco, and the idea is being considered by President Jeffrey. Whether the suggestion will be carried into effect is problematical.

"While in Switzerland about a year ago, I saw the plan carried into effect," said Franklin K. Lane. "It was a new idea in ticket selling to me and I looked into it. Over there, you can buy a ticket good for twenty to thirty days for something like 22 for the shorter period. It is possible with such a ticket, to travel anywhere on the railroads, stop off any place, or travel as much as you like. The ticket is limited only by time."

"If such a ticket could be sold in California during the exposition year, tourists would have a wonderful opportunity to see California, the interior points and the show places. It would stimulate travel. The idea is a new one, but I think it is a good one."

Asks For \$10,000 Damages

Three suits were commenced in the Superior Court on Thursday by the Sonoma Valley Water, Light & Power Company against Nellie O'Brien, Kate Carriger et al., daughters of the late well known pioneer, John O'Brien, of this valley. The suits involve the alleged destruction of water pipe belonging to the plaintiff company, obstruction and diversion of water and interference with water rights alleged to belong to plaintiff. The third suit is to quiet title to certain property in which the defendants claim an interest and to which the company says, in its complaint, they have no right.

A lively legal battle is promised when the hearings take place in court. One of the complaints alleges that the defendants tore up its pipe line between Lennox and Carriger creeks in Sonoma Valley and threw said pipe into a ditch. They are also alleged to have carried off some of the plant. Plaintiff asks for injunction, preventing further damage and for \$5,000 damages.

Another complaint alleges that the defendants diverted water from the south branch of Lennox Creek and tributaries and constructed ditches. An injunction and \$5,000 damages are also asked in this suit. James M. Oliver is the attorney for the plaintiff.

Burke Case Continued

The matter of argument for a motion for a new trial in the case of Dr. Willard Burke, which was set for hearing before the Appellate Court on July 16, has gone over to the October term of the court.

By stipulation of both sides in writing filed with the court, the attorneys for Dr. Burke on one side and Attorney General U. S. Webb on the other, the matter was continued, and the date of July 19 for argument was abrogated.

The opening brief, to be filed by the attorneys of Dr. Burke, will be placed on the records shortly. The record of the trial in the case, consisting of 3,500 pages, probably the largest record in any criminal case filed before the Appellate Court, has made it a difficult matter for either side to prepare to argue the case.

Dr. Burke is still at liberty on his bond of fifty thousand dollars. He is still at the residence of friends in the mountains, where he is endeavoring to recuperate his waning health.

Kidney Diseases are Curable under certain conditions. The right medicine must be taken before the disease has progressed too far. Mr. Perry A. El Verano II; Sonoma 8.

The El Verano ball tossers came to Sonoma last Sunday afternoon and paraded the proud goat, here before the personal property of the Sonoma Giants.

The Sonoma boys started off with a lead of two runs, and the El Verano rooters sighed, but something got twisted, or somebody cut the rope, and the balloon went up. When the ascension was completed the villagers had eleven runs. The Green's could not get more than eight in all, as the goat hid himself to the summer resort.

Be careful of that goat, El Verano, lest you loose him. He is a gentle animal at times, and goes to the village occasionally, but he never fails to return to the old town.

Base Ball Notes

By A. FANN.

Greeley allowed ten hits and Weaver nine. Nearly all of the El Verano boys hit for one base, while the Sonoma batters slammed out several long hits—doubles and triples.

Each team used two new men.

Weaver, El Verano's third base man, was accidentally spiked in the fifth inning. He was not seriously hurt.

There is a left felder named Leiser, who catches the ball very nice, sir. On the paths he's a bear. And he runs like a hare. Did you say he was slow? It's a ly, sir.

Each pitcher fanned nine men.

Jack Brown was there, was he not? Poppe, Sonoma's catcher, made a double and a three bagger.

THE BADGE OF HONESTY
The above illustration represents the several native medicinal plants which enter into Dr. Pierce's Favorite Prescription.

It Stands Alone The one and only medicine for the cure of women's peculiar weaknesses and ailments. The ingredients of which are printed and placed upon every bottle wrapper leaving the great laboratory in Buffalo, N. Y., where it is made, is Dr. Pierce's Favorite Prescription.

It Stands Alone Not only in its known composition, but also as the only specific advertised remedy for women's diseases which absolutely contains no alcohol.

It Stands Alone As the one medicine for women, the makers of which take their patients fully into their confidence and tell them exactly what they are taking. This Dr. Pierce can afford to do because it's "Favorite Prescription" is made of such ingredients, and after a working formula that has thousands of cures to its credit—thus placing its merits above criticism.

It Stands Alone As nature's cure for the diseases peculiar to women, and is composed of Golden Seal root, Blue Cohosh

root, Unicorn root, Black Cohosh root, and Slipper root, and chemically pure glycerine of proper strength, to extract and preserve the medicinal principles residing in the roots employed, for any length of time in any climate. It is scientifically prepared by experienced chemists and pharmacists at the laboratory of the World's Dispensary Medical Association, Buffalo, N. Y.

In the early sixties it was usually the duty of a practicing physician to ride many miles every day on his regular round of visits upon his patients. In those days a young man who had received a careful medical training in one of the best colleges of that day was accustomed to ride ten, twenty and often thirty miles or more, visiting the sick and afflicted. His success was soon phenomenal. Doctors and families called him for consultation to towns at considerable distances by rail. He became especially noted in the cure of obstinate and distressing diseases of women. He had early discovered that by combining the extracts of certain native medicinal plants in just the right proportion, without the use of alcohol, his "Prescription" almost invariably cured such cases. Later, in order to place this remedy before the public in a shape easily to be procured, he established a laboratory at Buffalo, N. Y., where regularly qualified chemists and pharmacists were put in charge to accurately prepare his "Prescription" and put it in shape for shipment. This remedy, which he named Dr. Pierce's Favorite Prescription, is not a "patent medicine," but is a real prescription of a real physician in a real practice, and hence the name.

A TEST

A Story For Independence Day
By SARA GOULD AMES
Copyright by American Press Association, 1911.

There is a house at Dobbs Ferry, N. Y., where cannon planted and the stars and stripes flying from a staff in the yard indicate that to the premises is attached something of national importance. It was in this house that Washington had one of his headquarters, and it was here that he planned the Yorktown campaign, which resulted in American independence.

Close by this place and on the opposite side of what was then called the Albany road lived a Tory family named Treat. A young lieutenant in the patriot army, John Rathbone, was a suitor for the hand of Marian Treat, and the girl returned his love. But her father, who had been born in England, was so staunch an adherent of the king's cause that he would not consent to the marriage of his daughter with a rebel.

On the contrary, with that vigor common in family affairs, especially at that day, among Englishmen, he insisted on his daughter accepting Captain Winstead, a member of the British army in America.

One evening Lieutenant Rathbone, whose regiment was stationed at Kingsbridge, rode over to Dobbs Ferry to see Marian Treat. His object was to induce her to brave her father's anger by becoming his wife. He was obliged to knock twice at the door, when it was opened by Marian herself, who seemed very much disturbed.

"What is it, sweetheart?" he asked. "Father has told me since you were here last not to receive you again."

"Is that all?" "Yes—no. I think you had better go." "Not till I have said what I have to say and received your answer."

She had lingered in the hall, but he strode into the living room, where she followed him.

"I have come," Rathbone continued, "to make a last protest against your marrying this Englishman, who is one of those who are endeavoring by force of arms to subject us to slavery."

Come with me now to the parsonage of Dominie Van Vorst and let him tie the knot. That is the only way by which you can escape a marriage with this Captain Winstead."

"I cannot go. If father should come in and find you here something awful would happen."

"Marian, sweetheart, come with me, I conjure you!" He seized her hand and was attempting to draw her toward the door when a man stepped from behind a screen and with wrathful mien confronted him.

"I am Reginald Winstead," he said, "the man to whom you have referred in such complimentary terms. Do you consider it honorable to attempt to win a lady in such fashion?"

"I consider it honorable to attempt to win in any fashion a lady who prefers me and is kept from me by a father's tyranny. Let me ask you, sir, if you consider it honorable to act with her father against his daughter's inclinations?"

"Let her decide here, now, between us," replied Captain Winstead, "and if she decides in your favor!"

The words were cut short by the violent opening of the outer door. Marian, white as a sheet, thrust Winstead behind the screen. One of General Washington's aids entered the room hurriedly.

"Mistress Treat," he said, "information has been brought to headquarters that a British soldier is within our lines and harbored by some of the Tory families hereabout. I must search the house."

"Captain," said Rathbone, "will you accept my statement that there is no such spy here?"

"You may not know of his presence," "I do know of the presence of a person here, a friend of mine. He has recently come from the enemy's lines and proposes to return there. Will you oblige me by permitting him to go free on my promise that no information goes with him?"

"I will refer the matter to the general."

The officer strode across the road and in a few minutes returned with the information that "General Washington, in view of his confidence in Lieutenant Rathbone, grants the request."

Meanwhile Captain Winstead had appeared from behind the screen.

"Lieutenant Rathbone," he said, "permit me to thank you for what you have done for me. Had I been taken within your lines in civilian dress, though there are few intimates of documents on my person, I would have been in danger of being hanged for a spy. Marian, do what I was asking you to do when we were interrupted. Decide between us."

Marian threw herself into Rathbone's arms.

"Now," said Rathbone to Winstead, "I will conduct you out of our lines."

"I beg that you will allow me to go out the way I came in," replied the Englishman. "If there is anything to lighten my disappointment at my loss it is that the girl I love shall marry a man who would not stoop to take advantage of a rival."

Winstead took his departure and found his way to his own army. When he had gone the girl Rathbone had so suddenly won said to him:

"An hour ago I had firmly resolved to yield to the wishes of my father. When you were so suddenly put to the test and your nobler instincts at once came to the front I was conquered."

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

"Twenty-five years ago I faced an awful death," writes, H. B. Martin, Harrelson, S. C. "Doctor said I had consumption and the dread cough I had looked like it, sure enough. I tried everything I could hear of, for my cough, and was under the treatment of the best doctor in Georgetown, S. C. for a year, but got no relief. A friend advised me to try Dr. King's New Discovery. I did so, and was completely cured. I feel that I owe my life to this great throat and lung cure." Its positively guaranteed for coughs, colds, and all bronchial affections. 50c & \$1.00. Trial bottle free at All Druggists.

In San Francisco, a city of over 418,000 people, the average alarms per day are five stills and four boxes. On July 4th the record was five stills and one box, and three of the stills were for grass fires.

Hay Fever and Summer Colds
Must be relieved quickly and Foley's Honey and Tar Compound will do it. E. M. Stewart, 1034 Wolfram St., Chicago, writes: "I have been greatly troubled during the hot summer months with Hay fever and I find that by using Foley's Honey and Tar Compound I get great relief. Many others who suffer similarly will be glad to benefit by Mrs. Stewart's experience. Sold by James McElney, Model Pharmacy."

Mistah Jack Johnson, champion, is another noted American who was presented at court during the coronation festivities, but it was a police court. Mistah Johnson drove his devil wagon too fast for the conservative Londoners.

Kidney Diseases are Curable
under certain conditions. The right medicine must be taken before the disease has progressed too far. Mr. Perry A. Pitman, Dale, Tex., says: "I was down in bed for four months with kidney and bladder trouble and gall stones. One bottle of Foley's Kidney Remedy cured me as well as sound." Ask for it. Sold by James McElney.

The British Government is about to lay telephone cables under the English channel to facilitate business between London and Paris.

Foley's Honey and Tar Compound is effective for coughs and colds in either children or grown persons. No opiates, no harmful drugs. In the yellow package. Reuse substitutes. Sold by James McElney, Model Pharmacy.

A war on grasshoppers has started in Western Kansas. The ravages of the insects, especially in the alfalfa fields, have caused the Atchison, Topeka & Santa Fe railroad to inaugurate a campaign of extermination along its lines.

Foley Kidney Pills are composed of ingredients specially selected for their corrective, healing, tonic, and stimulating effect upon the kidneys, bladder and urinary passages. They are antiseptic, antilithic and a uric acid solvent. Sold by James McElney, Model Pharmacy.

Japan is buying American locomotives for use in Manchuria and Korea. The Japs know a good thing when they hear it whistle.

Many contracts are now being made for hops throughout the country at 25 cents, but growers are holding off as it is generally believed that the price will go to 30 cents before picking time comes around.

Parson's Poem a Gem
From Rev. H. Stubbenvoll, Allison, Ia., in praise of Dr. King's New Life Pills.

"They're such a health necessity, in every home these pills should be. If other kinds you've tried in vain, USE DR. KING'S."

And be well again. Only 25c at All Druggists.

The automobile manufacturers all seem to be working toward self-cranking cars. The announcements for 1912 include self starting devices on all the more expensive cars. This improvement was bound to come. The cranking of cars is a sort of nuisance and it is often attended with danger. The new device will add greatly to the convenience of car drivers.

Kill More Than Wild Beasts
The number of people killed yearly by wild beasts don't approach the vast number killed by disease germs. No life is safe from their attacks. They're in air, water, dust, even food. But grand protection is afforded by Electric Bitters, which destroy and expel these dread disease germs from the system. That's why chills, fever and ague, all malarial and many blood diseases yield promptly to this wonderful blood purifier. Try them, and enjoy the glorious health and new strength they'll give you. Money back, if not satisfied. Only 50c at All Druggists.

A boy who fed a box of matches to a monkey in a New York zoo was arrested, but it is supposed that he will be acquitted on the ground that they were safety matches.

Although no formal action has yet been taken by the new commissioners of Valhalla toward forming a stringent gambling ordinance, it is expected that a step toward this end will shortly follow the announced plan of closing up dance halls in the tnderloin district.

Those Who Take Foley Kidney Pills
For their kidney and bladder ailments, and for annoying urinary irregularities are always grateful both for the quick and permanent relief they afford, and for their tonic and strengthening effect as well. Try Foley Kidney Pills. For sale by James McElney.

More than 1200 horses died from the heat in New York City during the last eleven days.

Assessor Henry P. Dalton of Alameda county was convicted of bribery last Friday in having solicited and received \$5,000 from the Spring Valley Water Co., to reduce its assessments.

Honest Medicines Versus Fakes
President Taft's recent message suggesting an amendment to the Pure Food and Drugs law in its relation to Prepared Medicines, does not refer to such standard medicines as Foley's Honey and Tar Compound and Foley Kidney Pills, both of which are true medicines carefully compounded of ingredients whose medicinal qualities are recognized by the medical profession itself as the best known remedial agents for the diseases they are intended to counteract. For over three decades Foley's Honey and Tar Compound has been a standard remedy for coughs, colds and affections of the throat, chest and lungs for children and for grown persons, and it retains to day its pre-eminence above all other preparations of its kind. Foley Kidney Pills are equally effective and meritorious. Sold by James McElney, Model Pharmacy.
